DEAR SINS—The public generally are fully aware of the thousands of remidies for Diseased Lungs, ander the titles of Satsaparillus, Pills, Plasters, Limiments, &c., that are daily brought to their notice through the newspapers, by way of advertisements. My object in writing this note for publication, is to induce the public, or at least those who are affilicted (it they will now patent those who are afflicted (if they will use patent modicines), to use one that contains articles of real use in Pulmonary Discass. I am conscious that, in so doing, I am acting most unprofessionally, and derogatory to the interests of medical science and the regular practitioners of medicine. The Medicine to which I refer is "DR. HALL'S

BALSAM FOR THE LUNGS." I have prescribed it in a large number of cases, and always with success. One case in particular, to which wish now to refer, was girrs up by several physi-cians who had been called in consultation with myself. The patient had all the symptoms of confirmed consumption, such as Cold Night Sweats Hectic Fever, Harrassing Cough, with continued pain in the Lobe of the right lung, attended with sevare Distribust He commenced immediately to get better, by the use of the spove named med taine, and was soon restored to his usual health! valuable Expectorant for breaking up distressing Coughs and Colds that I have over used.
